

What is the role of the government on
people's happiness?

The contribution of subjective well-being to public policies

Christopher Deeming
School of Geographical Sciences
University of Bristol, UK

History of SWB Policy

1994	United Nations publishes first Human Development Index
2000	First issue of the Journal of Happiness Studies is published
2002	UK Cabinet Office Report, Life Satisfaction: the State of Knowledge and Implication for Government
2007	European Commission initiates the 'Beyond GDP' project
2008	President Sarkozy est. Commission on the Measurement of Economic Performance & Social Progress
2009	OECD starts Better Life Initiative and Work programme on measuring wellbeing and progress
2010	The US government est. Commission on Key National Indicators, allocating \$70 million to the project
2010	UK ONS begins a programme to develop statistics to measure national wellbeing
2011	US National Research Council, the National Institute on Aging and the UK Economic and Social Research Council jointly support an expert panel on subjective wellbeing and public policy.
2011	UN General Assembly Resolution on Happiness 65/309
2012	UN High-Level meeting on happiness and wellbeing. Release of the UN World Happiness Report

Sarkozy Commission Recs (Stiglitz-Sen-Fitoussi)

- Move beyond GDP to measuring people's well-being
- Assess inequalities in well-being in a comprehensive way
- Give more prominence to distributions of income and wealth and well-being
- Use SWB and objective dimensions of well-being in the design and evaluation of public policies, both are important.

The contribution of public policies to subjective well-being

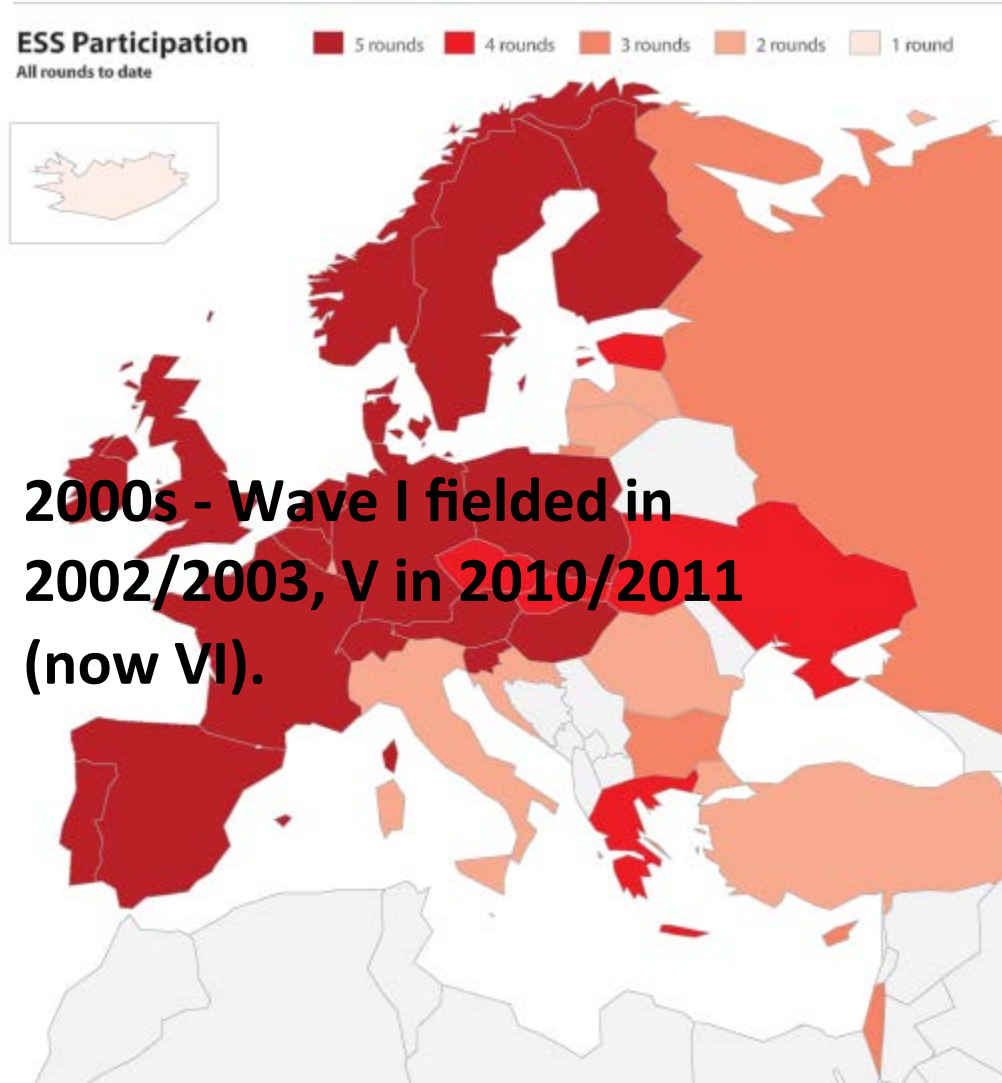

Understanding SWB in Europe

- Inequalities
- Determinants
- Impact of Social Policies.

SWB + European Policy

The 2020 strategy for Europe, launched by the European Commission in 2010, calls for a fairer and more equitable distribution of social well-being – ‘well-being for all’ is now the goal.

ESS survey questions SWB

- Taking all things together, how happy would you say you are?
- All things considered, how satisfied are you with your life as a whole nowadays?
- How is your health in general?

SWB overall picture

Notation

$$y_{1,ijk} \sim \text{Bernoulli}(1, \pi_{1,ijk})$$

$$y_{2,ijk} \sim \text{Bernoulli}(1, \pi_{2,ijk})$$

$$y_{3,ijk} \sim \text{Bernoulli}(1, \pi_{3,ijk})$$

$$\text{logit}(\pi_{1,ijk}) = \beta_{1,0} + \sum_{l=1}^L \beta_{1,l} x_{lijk} + \sum_{m=L+1}^M \beta_{1,m} x_{mjk} + \sum_{n=M+1}^N \beta_{1,n} x_{nk} + (v_{1,k} + u_{1,jk})$$

$$\text{logit}(\pi_{2,ijk}) = \beta_{2,0} + \sum_{l=1}^L \beta_{2,l} x_{lijk} + \sum_{m=L+1}^M \beta_{2,m} x_{mjk} + \sum_{n=M+1}^N \beta_{2,n} x_{nk} + (v_{2,k} + u_{2,jk})$$

$$\text{logit}(\pi_{3,ijk}) = \beta_{3,0} + \sum_{l=1}^L \beta_{3,l} x_{lijk} + \sum_{m=L+1}^M \beta_{3,m} x_{mjk} + \sum_{n=M+1}^N \beta_{3,n} x_{nk} + (v_{3,k} + u_{3,jk})$$

$$\begin{bmatrix} v_{1,k} \\ v_{2,k} \\ v_{3,k} \end{bmatrix} \sim N(0, \Omega_v), \quad \Omega_v = \begin{bmatrix} \sigma_{v1}^2 & & \\ \sigma_{v1v2} & \sigma_{v2}^2 & \\ \sigma_{v1v3} & \sigma_{v2v3} & \sigma_{v3}^2 \end{bmatrix}$$

$$\begin{bmatrix} u_{1,jk} \\ u_{2,jk} \\ u_{3,jk} \end{bmatrix} \sim N(0, \Omega_u), \quad \Omega_u = \begin{bmatrix} \sigma_{u1}^2 & & \\ \sigma_{u1u2} & \sigma_{u2}^2 & \\ \sigma_{u1u3} & \sigma_{u2u3} & \sigma_{u3}^2 \end{bmatrix}$$

$$\text{CovVar} \begin{bmatrix} y_{1,ijk} | \pi_{1,ijk} \\ y_{2,ijk} | \pi_{2,ijk} \\ y_{3,ijk} | \pi_{3,ijk} \end{bmatrix} = \begin{bmatrix} \pi_{1,ijk}(1 - \pi_{1,ijk}) & & & \\ \rho_{12} & \pi_{2,ijk}(1 - \pi_{2,ijk}) & & \\ \rho_{13} & & \pi_{3,ijk}(1 - \pi_{3,ijk}) & \\ & & & \pi_{3,ijk}(1 - \pi_{3,ijk}) \end{bmatrix}$$

Confirmatory: Objective well-being indicators

More equal societies perform better on non-subjective indicators of societal well-being

1. physical health (life expectancy)
2. mental health/illness
3. drug and alcohol addiction
4. children's education performance
5. imprisonment rates
6. obesity
7. social mobility
8. level of trust
9. homicides
10. teenage birth rate, and
11. infant mortality.

Summary

- Public Policies matter, to promote SWB and minimize inequality (Welfare Social Investment Policies)
- Good data is needed to guide Public Policy (issue of regions) + statistical work to understand variations
- Well-being is multi-dimensional: SWB + objective societal well-being indicators.

SWB and the policy process

	Monitoring progress	Informing policy design	Policy appraisal
Evaluation measures	<ul style="list-style-type: none"> • Life satisfaction 	<ul style="list-style-type: none"> • Life satisfaction • Domain satisfactions e.g. work, relationships 	<ul style="list-style-type: none"> • Life satisfaction • Domain satisfactions • Satisfaction with services
Experience measures	<ul style="list-style-type: none"> • Happiness • Anxious 		<ul style="list-style-type: none"> • Happiness and worry
Eudemonic measures	<ul style="list-style-type: none"> • Worthwhileness-of-life 		<ul style="list-style-type: none"> • Worthwhile things in life

Thank you very much
